EDUCATION

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) Nov. 2022 – May 2026
Bachelor of Techonology in Computer Science and Engineering(IOT) *Jaipur, Rajasthan*

EXPERIENCE

Automatically Enterprise July 2024 – August 2024
Software Engineer Intern *Jaipur, Rajasthan*
- Built and deployed backend services using AWS Lambda and API Gateway to manage real-time ride bookings for the Taxio app.
- Optimized UI responsiveness and integrated APIs for real-time booking updates using Flutter.
- Designed key UI components in Figma, enhancing app consistency and user experience.

Incubation Cell, SKIT Jaipur May 2023 – December 2023
Web Development Team Lead *Jaipur, Rajasthan*
- Led a team in creating scalable web applications using React, Appwrite, and Firebase.
- Integrated secure user authentication and cloud storage with Appwrite and Firebase.
- Mentored junior developers, promoting best practices in coding, UI/UX design, and agile workflows.

PROJECTS

BuzzSphere - Chatroom Website — React Appwrite Realtime **Live | GitHub**
- Developed a real-time chat application featuring secure authentication and live messaging powered by Appwrite.
- Focused on a responsive UI and seamless performance for a dynamic communication experience.

Mind Mosaic - CRUD Bloging Website *| React, Appwrite* **Live | GitHub**
- Developed an interactive blogging website with secure user authentication and real-time updates using Appwrite.
- Integrated TinyMCE for rich-text editing, enabling users to create well-formatted blog posts.

GitHub README.md Generator — React, Node.js, Express, OpenAi API, GitHub API **Live | GitHub**
- Built a tool leveraging OpenAI and GitHub APIs to create detailed README files using repository links.
- Streamlined the process of generating structured project documentation with an intuitive interface.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Java, HTML/CSS, SQL
Frontend Technologies: ReactJS, NextJS Tailwind CSS, Material UI
Backend/Databases Technologies: Node.js, Express.js, MongoDB, AWS Services, Appwrite, Firebase
Developer Tools/Technologies:: GitHub, Figma, FlutterFlow, Andriod Studio

LEADERSHIP / EXTRACURRICULAR

Campus Leader - C4GT (Code4GovTech) Ongoing
Code for GovTech Initiative
- Guided college students in contributing to open-source government projects, fostering skills in collaborative development and problem-solving.
- Promoted awareness of GovTech opportunities and encouraged participation in impactful technology-driven solutions.

Open Source Mentor - GSSoC '24 June – August 2024
Ranked First *GirlScript Foundation*
- Mentored multiple students, reviewed pull requests, conducted regular one-on-one sessions with mentees, and contributed to the success of the GSSoC program by helping students build practical skills and a strong foundation in open source contributions.

Winner IBG x House of Dev AI Buildathon | Developed AI-Enabled Recruitment Platform **September 2024**
